Vol. XVIII

RICHMOND, CALIFORNIA, FRIDAY, JANUARY 21, 1921

No. 3

People of California Are Stirred to Action

U. S. Must Oppose Efforts of Japs to Break In

(Special to The Richmond Terminal.)
San Francisco, Jan. 21.—The collection of a "secret emergency fund" by the Japanese societies of California to "arouse public sentiment in Japan and to win sympathy and influence in America," has merely resulted in arousing California to build a fund to educate the nation on the Japanese problem.
While the Japanese have raised more than \$100,000 here, according to the vernacular press here and in Japan, California will raise a fund of \$200,000 during the week of February 7-12 with which to acquaint the nation with California's reasons for the overwhelming California victory for the alien land law at last election. Loyal California interests and the Pacific states are stirred to the most determined action of years.

Richmond Industrial Commission Meet

Richmond industrial commission held the first meeting of the new year at Martin's Grill yesterday.
The commission is arranging for one of the biggest years in the history of the city. The present lull in manufacturing circles will be followed by a revival in all lines and Richmond will have many new enterprises, say the commission.

Warehouse Plans Near Completion

Plans for the addition to the municipal warehouse are in the hands of the blue print artists, and when complete bids will be called for to perform the work. The city council will advertise for bids on the new structure, which is to cost the city \$150,000, as soon as the blue prints are completed.

Freak Weather for The Golden State

Richmond and the bay districts had a sample of back pyrotechnics Wednesday night when the weather man put on some sheet lightning accompanied with several "alarming" peals of thunder, quite unusual for this semi-tropical climate. Streets were flooded and traffic was tied up for a few hours.

"Lost" High School Girl Discovered

Grace Barrows, Richmond high school girl, who mysteriously disappeared last week, and for whom diligent search was made by the police department and friends, has been "discovered."
Grace says in a letter from Folsom to her sister here that she just took a little trip up the country to visit her uncle at Folsom; that she was temporarily tired of school and the humdrum of Richmond life.

Large Enrollment in Richmond Schools

The enrollment of Richmond schools is approximately 4000.
Supt. W. T. Helms estimates the grammar schools of Richmond will house 2300 and the high school at 800.

City Attorney Hall Is With Lobby at Sacramento

City Attorney Hall, chairman of the legislative committee of the state municipalities league, is in Sacramento endeavoring to secure the support of several acts which will be of interest to a number of cities of the state as well as Richmond.

He will endeavor to interest the legislators in the Owen's bill, which would enlarge the city's tidelands. Hall would have the act amended governing work performed by municipalities and districts under bond issues.

Another bill would provide for the collection of street assessments so that there would be no confusion or delay, and avoid duplication.

"City of Richmond"

"City of Richmond" is the name of the new ferryboat now nearing completion to be launched by the Richmond-San Rafael company. When in practical operation the new ferryboat will relieve a decided congestion at present felt and will be received with satisfaction by the motoring public. The new boat will accommodate 75 autos.

After Trading Stamps

The bill introduced in the legislature placing a ban on trading stamps is attracting attention of a number of the merchants. A local druggist is reported as lobbying against the trading stamp at Sacramento, and will endeavor to have the bill passed.

Richmond May Have Lions Club

Richmond wants a Lions Club, and it is up to Oakland to start them on their way. The "gasoline bunch" were highly pleased with their reception and entertainment at Wednesday's luncheon.—Oakland "Lions Roar," (official organ.)

No Site For Garbage Incinerator Plant

J. Gale, who was granted a franchise to erect an incinerator and given privileges to collect and dispose of all garbage accumulating in the city, has not succeeded in securing a site. The garbage question is becoming a serious one for Richmond.

Need Fire Tug For Bayfront Protection

Mayor Long will support the bill introduced in the legislature for an appropriation for a fire tug for the protection of vessels along the Richmond waterfront. Fire Chief Lamoine recommended the support of the bill asking the state for an appropriation.

1000 Oaks School Fire Loss \$4405.50

The adjustment of the fire loss to Thousand Oaks school building was \$4405.50. This amount was the basis of settlement with the insurance companies.
The loss on building was appraised at \$4285.50 and on furniture and fixtures \$120.

Santa Fe Doesn't Cater to Automobile Traffic

The Santa Fe railroad company does not solicit automobile patronage; in fact, don't want it, states the company's attorney, E. W. Camp. It seems that the Santa Fe is catering strictly to transcontinental business, and as far as local accommodations for joy riders and other spasmodic local travel, does not care much for it.

Jump in Ferry Rates May Stay With Us

According to comparison of land and water rates for passenger traffic, Santa Fe officials contend that 65 cents is small enough fare, considering overhead and advanced costs of operating. The water haul is over twice the distance operated by the Key and S. P. It is doubtful whether the Railroad Commission will be appealed to, considering the quick transit offered by the busses and traction companies at one-half the price.

Penna R. R. Adopts "Taming" Method for Employees

Philadelphia, Jan. 21.—All employees of the eastern region of the great system of the Pennsylvania railroad have been ordered to take one day off a week without pay. Approximately 100,000 men are affected. Since late in December more than 30,000 employees throughout the Pennsylvania system have been laid off.

Sacramento River Is On Rampage

Sacramento, Jan. 21.—The Sacramento river has risen 15 feet during the storm which ended Wednesday morning and the flood stage is near.
The American river above the city is leaving its banks.
At Colusa the river is 18 feet above low water mark.
At Willows part of the town is inundated.
At Knights Landing the river is still rising.

Flood Water Not Visible in Subway

Much to the surprise of the oldest inhabitants, the flood water accumulated on account of the heavy downpour of Tuesday did not delay travel through the subway, nor were the streets flooded to prevent travel even for a few minutes. The surface water found its way out to the bay and no inconvenience was experienced.

Season's Rainfall 16 Inches

The rainfall the last week was the heaviest of the season. Especially was the downpour heavy Sunday, Monday and Tuesday. Tuesday afternoon the storm was the severest in years. It is reported that an inch and a half fell during the afternoon.

It Wasn't Jack Crow

A man who was getting shaved in a local barber shop the other day, asked for all the "trimmings," after having his hair cut. This included a hair singe. As the barber was singeing the customer's hair a lady with a little boy passed by the barber shop, when the youngster bawled out: "Look, ma, he's huntin' on that man with a candle!"

Joint Committee Meet Today to Decide on Naval Base

Washington, Jan. 21.—The joint congressional committee meets today to decide on the selection of a naval base site for San Francisco Bay. The meeting has been postponed several times, and it is believed the committee will settle the question this afternoon and relieve the suspense in several localities around the bay.

Movie Promoters Have Grievance

Chicago, Jan. 21.—The city council of this city passed an ordinance banishing all "sex" pictures and vulgar comedies exhibited in Chicago show houses. The council also placed a ban on questionable screen advertising, and will require all "copy" to undergo censorship by a board appointed by the council.

Pioneer Printers to Hold Annual Banquet

(Special to The Richmond Terminal.)
Denver, Colorado, Jan. 21.—The Pioneer Printers association of Colorado is an organization composed of printers whose services at the trade dates back twenty-five years—to when the click of the old bourgeois or minion yet was heard in the stick all over the Rocky Mountain region. The association formed by these old boys, many of whom have deserted the trade for positions of honor and remuneration in various activities of state, has gained for itself a real place in annual affairs in Denver and invitations to the annual meeting and banquet are eagerly sought. This year the dinner will be held at the Metropolitan hotel on the evening of January 24th and promises to be a huge affair in every way.

U. C. Students Secure Good Paying Jobs

Berkeley, Jan. 21.—The student employment bureau of the university filled 516 positions for men during December. Of this number 191 were under the head of regular student employment, and 325 were jobs for the Christmas holidays, paying from \$3.50 to \$10 per day.
Rainfall for season, 16.15 inches.

Terms Expire July 1, Present Year

Terms of members of the city council, Hartnett, Gerlach and Ogborn, expire July 1. A primary election will be held April 9. It is said there will be a large field of candidates out for the places.

War Pictures of 91st Div. to Be Here Jan. 31st

The American Legion will present the 91st Division Argonne Forest motion pictures here Jan. 31 at the Lincoln auditorium, afternoon and evening. The pictures were taken by the war department, and have been released by the government.

Early Morning Fire

A fire starting from an overheated cookstove yesterday morning at the Scraggs residence, 1921 Roosevelt ave., did damage to the extent of \$350.

California Is Soaked; Reservoirs Filling Rapidly

Manager George Wilhelm of the East Bay Water Co. informs this newspaper that San Pablo and Lake Chabot reservoirs are one-third full, and that the run-off from the continued storms will increase the supply, so that there will be no shortage in 1921. The supply will be unrestricted.

February will be a wet month, say the weather probs, and with additional showers in March, there will be prosperity ahead for the Golden State.

Proctor & Gamble to Construct Plant Immediately

Benjamin Schapiro of the Richmond Industrial Commission says Proctor-Gamble people are making preparations to start work in driving piles for their big soap plant, for which the Cincinnati corporation purchased 51 acres at the head of the inner harbor.

J. J. Moran, member of the commission, who is credited with bringing the Proctor interests to Richmond, could not be reached to verify the statement that the Proctor engineers were here and ready to drive the test piles for the foundation of the big plant. (Keep your eye on Richmond.)

RANDOM COMMENT

Mayor Davis of Oakland has called a meeting of the mayors of Eastbay cities to consider a plan for obtaining authority to form a water utility district. The plan is said to be a preliminary step to secure an enabling act so that all the municipalities of the Eastbay district may co-operate in a final effort to secure a new and adequate water supply. The Berkeley-Albany effort fell through because there was no concentrated effort, but had its good effects in keeping the movement alive until a solid front could be formed, the united efforts of all, in solving a problem that will demand consideration in the near future. By securing a revision of the law governing the formation of utility districts, at this session, two years time will be saved in the consummation of the plan proposed.

The delegation of California business men who visited President Obregon of Mexico Monday in the executive palace at Mexico City, received a hearty welcome, and were told that foreigners and nationals would enjoy like "privileges" as long as the laws of Mexico were respected. President Obregon said that a strong friendship exists in Mexico toward the United States.

The readjustment that will take place in the next two years will be attended by declining prices and wages. Capital, Labor and Agriculture will have to absorb their share of the shrinkage in values and economic losses. There will be no margin for wild talk or wild actions and intelligence must reign as the superior power in human affairs and overpower resorts to violence.

Taxation conditions in this nation will awaken the public to its laxness in public affairs when it finally realizes that the toll of the tax-gatherer has closed industries, created unemployment and has been the greatest factor in increasing the cost of living.

Marshall Conservation Plan Is Most Feasible

Bank Teller Bradshaw Is Indicted by the Grand Jury

Martinez, Cal., Jan. 21.—Lester J. Bradshaw, former paying teller of the First National Bank of Richmond, was indicted by the grand jury here yesterday, and a bench warrant for his arrest has been issued by District Attorney Tinning. The counts in the indictment cover five withdrawal checks of \$2000 each to which Bradshaw is accused of having forged the name of Nelson.

Bradshaw and wife, accompanied by Bradshaw's mother, are supposed to have landed in Australia.

New Richmond Show House Waiting for Supplies

Richmond's new theatre building is having an experience something like the old Tabor Grand of Denver, which was blown down by a storm while in the course of construction.

The high winds of the latter part of December dismantled the steel work of the T. & D., which had been put in place, but was unable to withstand the heavy north gale.

Work on the new structure will begin at an early date, it is said.

No Reduction of Wages at Pullman

The report that the Pullman shops have adopted the 9-hour day as a "feeler," and will soon return to the pre-war wage, is unfounded. It is said the Pullman management will pay overtime at union rates and adopt the Saturday half holiday. During the war Pullman employees' wages were advanced several times and working conditions improved for both sexes in all departments. This was done under government control, and will continue, it is said, under private ownership.

The Terminal is on file in all the public libraries in Contra Costa county and has hundreds of readers.

nia's obligation to provide work and land for returned soldiers. It would end, once and for all, the annual waste of many millions of acre feet of water flowing through the Carquinez Straits.

Summary of Marshall Plan

First—The Marshall plan does not propose to endanger any existing rights, systems or contemplated development. Its entire purpose is to save the water and make an increased supply available to users.

Second—No surplus in any locality will be removed to any other locality until the needs nearest the point of origin have been met.

Third—The campaign for the preliminary investigation, further formulation of the engineering and legal ground-work of the plan, later construction, maintenance and distribution, all must be entirely and solely in the hands of the state, represented by a competent state commission. The entire project must be kept clear of private exploitation of all kinds.

Fourth—The method of financing now proposed is for the state to issue bonds and retire them during the period of 50 years by the sale of reclaimed water.

California's Resources Just Beginning to Develop

The Marshall plan for the conservation of waters of California streams now going to waste will eventually be carried out by the people of the Golden State is conceded by hundreds of the state's best citizens. The plan is being put forward by the California State Irrigation association, which is composed of several thousand members.

Colonel Robert B. Marshall was for eleven years chief geographer of the United States Geological Survey. He was connected with the survey for 30 years, 25 years of which he devoted to laying the groundwork of the Marshall plan. The Marshall plan is based upon government surveys entailing an expenditure of \$1,000,000 of government funds and the employment of more than 1000 men, under the supervision of Colonel Marshall.

Marshall's plan is to transfer or move the volume of water from the area of greater rainfall in the north to the region of shortage in the south.

This can be done by the diversion of the Klamath and Trinity rivers into the headwaters of the Sacramento, which would require the construction of a 400 foot dam near Kennett, 12 miles above Redding, and the diversion of the accumulated waters to the upper east and upper west side of the Sacramento valley.

By a system of canals and units, the four great valleys of California would receive an abundance of pure mountain water, including the bay cities and Los Angeles, the supply for the latter city would be four times the present Owens river supply, which, it is said, will soon be insufficient.

The salt water problem could be solved the same as it is taken care of in Holland and other European countries—by the construction of a lock and draw dam at Army Point, which would repel the salt water and release the fresh water.

Colonel Marshall foresaw this difficulty and laid plans for its solution 15 years ago.

Results Attainable

The system would provide water for 12,000,000 acres in the five valley's exclusive of the Southern California unit.

It would give the bay region an ample supply for all time.

It would relieve manufacturing enterprises of serious difficulties due to the lack of adequate water supply.

It would insure Los Angeles against the future inadequacy of the Owens River supply, which is anticipated.

It would make available an amount of power many times that which is now in use. It would remove actual or potential controversy and litigation in one big, final plan of storage, distribution, and utilization.

It would add about \$6,000,000 to the assessable value of California lands.

It would provide homes for millions of new citizens.

Its construction would have a great stabilizing influence in absorbing the inevitable labor surplus, due to business depression.

Supplemented by a far-sighted land policy, it would be the most effective discharge of California's obligations.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

WIN SCOUT ESSAY PRIZES

Scout Lewis Adam Vincent of Oakland, Cal., is the lucky winner of the first prize in the nationwide contest conducted by the national board of fire underwriters among the members of the Boy Scouts of America for essays on the subject of Fire Prevention. Scout Vincent received a solid gold medal and also a complete camping outfit consisting of 49 articles. He is also the first prize winner in the Eighth district, the country having been divided into that many districts by the scout organization.

The other district winners are Henry F. Howe, Cohasset, Mass.; Dudley F. Snowman, Southington, Conn.; Robert N. Young, Philadelphia; Wendell Ayres, Upland, Ind.; Cecil C. Hunn, Jr., Giltner, Neb.; Clifford R. House, Jr., of Covington, Ky.; and William Blake, Fox Lake, Wis. The board of judges rendered the better essays to 16 in number for the final decision. Each of the judges then indicated his preference by marking the essays that he considered best in the order of his first and succeeding choices. In order to insure fairness the entries were marked for identification by number only, the judges not knowing who had written the compositions. Scout Vincent's essay received a total of 15 points and his nearest competitors were Henry F. Howe with 12 points;

SCOUT LEWIS ADAM VINCENT. First Prize Winner in Boys Scouts of America Essay Contest on Subject of Fire Prevention. He is an Oakland (Cal.) Boy and the Prize is a Handsome Gold Medal.

Dudley F. Snowman, 11 points; Wilbur E. Mallalieu, Jr., Jersey City, 11 points; Lyman A. Stockman, East Orange, N. J., nine points; George L. Brill, New York city, eight points; George A. Hess, Roslyn, N. Y., seven points. Each of the section prize winners was awarded a solid gold medal.

Besides these gold medal winners, silver medals were awarded as first prizes in different states to the following: Phil Fitzpatrick, Bessemer, Ala.; Wm. Halton, Jonesboro, Ark.; Lewis A. Vincent, Oakland, Cal.; Felix F. Farrell, Denver, Colo.; Dudley F. Snowman, Southington, Conn.; T. B. Ford, Atlanta, Ga.; Joe W. Slocomb, Buhl, Idaho; Mac Wetherhold, Princeton, Ill.; Wendell Ayres, Upland, Ind.; Harold B. Vasey, Collins, Iowa; Ernest W. Johnson, Wamego, Kan.; C. R. House, Jr., Covington, Ky.; Edwin R. Gould, Portland, Me.; Billy J. Somerville, Pikesville, Md.; Henry F. Howe, Cohasset, Mass.; Fred Bradley, Detroit, Mich.; Howard Caddy, Nashua, Minn.; Louis Madison, La Plata, Mo.; Cecil C. Hunn, Giltner, Neb.; John R. Holbrook, Keene, N. H.; W. E. Mallalieu, Jersey City, N. J.; Frederick Stanley, Deming, N. M.; H. Kenneth Lee, Asheville, N. C.; William W. Newcomb, Bismarck, N. D.; George Albert Hess, Roslyn, N. Y.; Ivan Grimsbaw, Akron, O.; Kenneth Linklater, Hillsboro, Ore.; R. N. Young, Phila, Pa.; Arthur R. Raymond, Jr., Pawtucket, R. I.; W. K. Holbrook, Ogden, Utah; H. Thompson, Ocean View, Va.; Hubert N. Foster, Waco, Tex.; Arvin Grant, Spokane, Wash.; Benjamin F. Gillum, Buchanan, W. Va.; William Blake, Fox Lake, Wis.

Maj. Gen. Leopold Wood, U. S. A., was chairman of the board of judges, and the other judges were Colm H. Livingstone, president of the Boy Scouts of America; James E. West, chief scout executive; Charles Lyman Case, president of the national board of fire underwriters, and Wilbur E. Mallalieu, general manager of the national board of fire underwriters.

GOOD TURNS FOR BOY SCOUTS.

Camp Kiwanis, built by the Kiwanis club of Saginaw, Mich., for the boy scouts of that city, has one of the finest log cabins in the country, plans for which are being sought from many cities by other clubs who want to boom this big boy movement.

Troop 12, Spokane, Wash., provided clothes and food as needed by two poor families, gave \$10 to Near East relief and furnished two scouts daily for two weeks to run errands for the Social Service bureau.

Golden State News

TERSELY TOLD

Los Angeles.—Sylvester L. Weaver, head of a roofing company, has been elected president of the Los Angeles Chamber of Commerce, succeeding Maynard McFie, who was elected treasurer.

Los Angeles.—Raymond C. Thorne of Chicago was killed here January 10 in an automobile accident. His body was found under an overturned car on Wilshire boulevard in the western part of the city.

San Francisco.—Harris Casper, 47 years old, was found in bed dead from gas asphyxiation in his home at 926 Folsom street. Gas was escaping from a partially turned on burner in the kitchen adjoining Casper's sleeping quarters, and it is believed to be a case of accidental death.

Fresno.—Mrs. Harila Ayvazian was shot and killed here January 12. Three shots were fired into her body. Her husband, Gaspar Ayvazian, gave himself up to the police. The woman's husband was jealous, according to the police. The couple came here from Whitensville, Mass., ten months ago.

Los Angeles.—An anti-rent-profiteering ordinance was passed January 12 by the city council. It prohibits rentals in excess of 11 per cent of the gross investment on real property and 16 per cent on furnishings. It becomes effective immediately. A violation is considered a misdemeanor.

Sacramento.—A bill to make professional fortune telling a misdemeanor was introduced by Senator Scott. The measure would place a ban on "card reading, palmistry, clairvoyance, spirit mediumship, prophecy or any crafty science" whereby money is received from the public. It would prohibit the advertising of "pretense of psychic or occult powers."

Los Angeles.—The bodies of Aubrey Evans, 45, said to have been a wealthy contractor of Fresno, Cal., and Miss Irene Adams, 25, of the same city, were found in a room in a downtown apartment-house here January 2. Both were dead from bullet wounds. The position of the bodies and a revolver near Evans caused the police to advance the theory he had killed the young woman and then killed himself.

Sacramento.—Governor William D. Stephens January 11 announced the appointment of William P. Cary as superior judge of San Diego county to succeed the late Judge T. L. Lewis. Cary was unanimously endorsed by the Bar Association of San Diego and by the San Diego post of the American Legion. He is the first vice-commander of the Department of California of the American Legion.

San Mateo.—Raymond Weertzel, a soldier stationed at the Presidio, San Francisco, rushed into the automobile shop of Fred Beer and after muttering that he had drunk a poisonous disinfectant, fainted. He was taken to the Red Cross hospital, where Dr. N. D. Morrison declared he was in a serious condition. Weertzel said he had come to San Mateo from San Francisco after drinking considerable whisky and did not know what he was doing when he took the poison.

San Francisco.—Using the cord from his bathrobe to make a noose, William H. Birkett, 55, former silk buyer for a downtown store, committed suicide by hanging himself from the top hinge of a door, after he had locked himself in a room at the Park West Home, 925 Grove street. According to attendants at the home, which is a psychopathic hospital, Birkett had been suffering from melancholia, and had gone there about two months ago. He was a widower, and before going to the hospital resided at 132 Locust street.

San Rafael.—Dissatisfaction with the provisions of a business tax ordinance recently passed by the San Rafael City Council resulted in the presentation of a petition of protest signed by 100 San Rafael business men. The petitioners asked that the maximum of \$60 a year be removed and that the tax be levied on the gross volume of business. The ordinance now places merchants, tradesmen and professional men in classes, with rates ranging from \$20 a year to \$60 a year. Mayor George F. Rodden announced that changes in the ordinance may be made by amendment.

Martinez.—E. W. Brown, steel worker, charged with attempted assault upon Edna Hargrave on December 17, pleaded guilty to the charge and was sentenced by Superior Judge R. H. Latimer to serve from one to fourteen years in San Quentin. Brown was captured at Pittsburg after he had carried the girl to a box car from the station platform of the Santa Fe, where she was waiting a train. The girl's cries attracted the attention of John Lowe, superintendent of the Standard Oil station, who went to her rescue and captured Brown. Miss Hargrave is 17 years of age and lives at Bay Point.

MYSTERY VEILS EAST BAY TRAGEDY

Miss Clarice Sheldon, Daughter of Late S. F. Lumberman, May Have Slain Self

San Francisco.—The body of Miss Clarice Sheldon, 23, daughter of the late L. C. Sheldon, San Francisco lumberman, was found in a lonely thicket near San Leandro January 12.

Death was caused by a bullet which crashed through Miss Sheldon's left temple. No powder marks were found near the wound in the young woman's head.

Footprints found near the body were identified as those of another person. When found by W. T. Dutra, a rancher, near San Leandro, Miss Sheldon's body was lying on its back. The left hand clasped a pistol. An opened box of cartridges, with only one missing, was found near the body. The presence of cigarette papers and chewing gum wrappers near the body caused Deputy Coroner Feramur to believe that a man may have been at the spot where Miss Sheldon's body was found before the shooting occurred.

A deeper shade of mystery was cast over the tragedy later in the day when two persons identified the body as that of a young woman they saw last week in San Leandro in company with a man described as "heavy set, dark featured and about five feet five inches in height." The man and Miss Sheldon were accompanied by a little girl of 6 or 7 years, according to John Rowlen and Frank and George Dutra, sons of the rancher who found the body.

According to Mrs. Leonice Sheldon of 2310 Prospect street, Berkeley, mother of the young woman whose body was found, Miss Sheldon disappeared from the Livermore Sanatorium one week ago last Monday. Miss Sheldon had been an inmate of the sanatorium for six months, according to her mother.

Captain William F. Kyle of the Oakland police department said that three women interviewed him Monday night, January 10, asking for advice concerning a missing girl. The women would not give their names, nor that of the missing girl, but admitted that she had escaped from the Livermore sanatorium.

Dr. G. H. Podstata, proprietor of the sanatorium at Livermore, is inclined to believe that Miss Sheldon killed herself.

"Miss Sheldon was deeply depressed before she disappeared," Dr. Podstata said. "On many occasions she told me that she intended to do away with herself. Miss Sheldon's disappearance was not made public because her relatives desired to avoid publicity."

A search for Miss Sheldon was instituted the day she disappeared from the sanatorium, but no trace of her was found until Dutra stumbled upon the body in a thicket of willows on his farm near San Leandro.

Dutra notified Marshal J. F. Peralta of San Leandro, who detained Deputy Coroner Feramur to investigate. No evidence of a struggle was evident to Feramur, although several strands of hair, believed to have been those of Miss Sheldon, were found clinging to the bars of a wire fence near the spot where the body was found.

Among the effects found on Miss Sheldon's body was a Christmas card bearing the signatures of John Harley Emmert, president of the Pacific Lumber Company of San Francisco, and Mrs. Emmert.

Emmert explained last night that Miss Sheldon acted as his private secretary three years ago, but that he had never seen nor heard of her since 1917.

"Miss Sheldon was on our Christmas card list and we naturally sent her a card," Emmert said last night.

Miss Sheldon is survived by her mother and a sister, Miss Florence Sheldon, a student at the University of California. The woman whose body was found yesterday was graduated from the Alameda High School in 1916 and for a year acted as Emmert's private secretary. She then entered the University of California and her popularity gained her admittance to the Pi Beta Psi sorority. A year ago Miss Sheldon suffered a nervous breakdown and was compelled to leave college in her junior year.

Stanford University.—The contract for the new Stanford Union Building was let to George Wagner, San Francisco contractor. Excavation for the new structure, which will be located just back of the present Union and Women's Clubhouse, has also commenced.

Something New

She is a charming young woman, a member of the faculty of one of the city high schools. Tripping blithely into a department store one evening after school, she approached one of the floormen and inquired: "Could you tell me where I could find nightingale ovals?" The man directed her, maintaining a sober countenance.

SCHOOL DAYS

Mother's Cook Book

The appearance of the table and the viands upon it add wonderfully, not only in point of aesthetic taste, but also in digestive results as well, for we digest and assimilate more readily that which pleases the eye. Some one has said that the eye is the first organ of digestion.

SEASONABLE DISHES

This is the season for fudge making. Try adding a spoonful or two of molasses to the fudge mixture after it has cooked five minutes. It improves the flavor and keeps the candy from sugaring. Spices, cinnamon, a bit of clove, chopped dates and figs make a delicacy more easily digested than fudge rich with nuts. A most wholesome candy for children is fudge thickened with corn flakes. Crisp flakes and stir in as many as the mixture will hold. A nice peanut fudge is made by putting a layer of peanuts in a greased pan, then pour over the fudge just before it gets hard, after a good beating.

Baked Slice of Ham. Take a thick slice of ham and parboil in water to half cover, turning often; add one clove of garlic, remove the ham and cover with a tablespoonful of mustard mixed with two tablespoonfuls of brown sugar; add water to just cover the bottom of the baking dish but not to reach up to the sugar. Bake slowly until the sauce has been absorbed and the water nearly evaporated. More water may be needed, but it should be added in small quantities and boiling.

Vegetables in the Diet. Vegetables, raw when possible and when necessary to be cooked, cooked in steam and served with butter, and a small amount of salt and pepper will soon build up a run-down constitution. Add to this whole wheat breads and cakes, and plenty of salad plants and the body will have no need of pills to keep it functioning.

Simple Fudge. Take two cupfuls of sugar, two squares of chocolate melted over hot water, one-third of a cup of sirup or two tablespoonfuls of light molasses, two tablespoonfuls of butter and one-half cupful of milk. Cook to the soft ball stage, cool a little and stir until creamy, pouring out before it gets too hard. Have it smooth and attractive in appearance. If cream is used in place of the milk the butter may be omitted.

Yankee Potato Salad. Boil two quarts of potatoes with the skins on, cook two eggs until hard. While hot combine the eggs and potatoes, cutting in bits, stir in two tablespoonfuls of butter, add one chopped onion and one-half cupful of mild vinegar; season with salt and pepper and set aside to become cold. When ready to serve add one cupful of heavy cream and sprinkle with parsley.

Sausage With Apple Rings. Cover the sausages with boiling water; after picking them in every part let simmer fifteen minutes, then drain and brown in the oven. Make a sirup of a cupful each of sugar and water; cook in this very carefully four or five tart apples, cored, pared and sliced in rings. Serve the sausage with the apples in overlapping border around them.

Stuffed Green Peppers. Cut the tops from one dozen green peppers and put the tops with a small onion through the meat grinder; add one pound of sausage meat, three-fourths of a cupful of cracker crumbs, three-fourths of a teaspoonful of salt, and milk to soften if needed. Remove the seeds and membrane and stuff the peppers with the mixture. Cover the top of each with buttered crumbs and bake in a moderate oven 45 minutes.

Neenie Maxwell (Copyright.) Toys manufactured in Belgium are made largely by machine and painted by hand.

TO TAKE OATH ON CAPITOL PORCH

President-Elect Harding to Deliver His Inaugural Address From East Portico

Washington.—President-elect Harding will take the oath of office and deliver his inaugural address on the east portico of the Capitol, instead of in the senate chamber, so that several thousand persons may see the ceremony instead of only about 800, all that the senate galleries would hold.

No grandstands will be erected, however, and everybody who attends will have to stand, except possibly a few notables, who may be given chairs on the portico.

There will be a speakers' stand just large enough to accommodate the president-elect, the chief justice, who administers the oath; the clerk, who holds the Bible, and the retiring president, if he is able to attend.

The change came about through an exchange of telegrams between Harding and Senator Knox, chairman of the joint congressional committee on inauguration. The committee apparently had taken the president-elect too literally when it decided to hold the inaugural in the senate chamber.

Mr. Harding wired: "I am deeply grateful to your committee for the action in arranging for the simplest possible program for the inaugural ceremony. It is wholly pleasing to me to take the oath of office in the senate chamber if such is the decision of your committee. However, I am not unaware of a natural and becoming popular interest in a president-elect assuming his official obligations, and I would gladly have the simple ceremony on the east porch of the Capitol, weather permitting, provided it can be arranged amid such facilities as are afforded without special construction for the occasion."

"I do not forget that during the late campaign, which culminated in my election, I spoke frequently to the people from the front porch of my home and they were courteous enough to stand and hear amid accommodations less comfortable than the Capitol steps and plaza afford. If this seems impracticable to your committee it deserves no further consideration. The abandonment of public expenditure and the end of all suggestions of individual outlay have put an end to my concern and mere detail of oath taking which your committee deems best will meet my ready assent."

"Understanding," Senator Knox telegraphed, "now that weather permitting, you prefer the east porch of the Capitol, I am sure the committee will gladly so arrange, and I am calling a meeting at once for that purpose."

A local merchant advertised "one-third off on evening gowns," stating he got a large supply in anticipation of an elaborate inaugural ball.

HOUSE VOTES \$7,100,000 FOR DRY SQUADS

Washington.—Prohibition advocates in the house forced an appropriation of \$7,100,000 for the Volstead law enforcement during the next fiscal year, beginning July 1.

The house appropriations committee recommended \$2,500,000 for this work. The prohibition advocates pointed out that the enforcement officers were allowed \$5,500,000 for this work during the present year and face a deficit of \$1,600,000. By a vote of 86 to 48 the prohibitionists increased the appropriation.

Before the final action was had, Representative Gallivan of Massachusetts, "wet" leader, had presented an appeal for \$100,000,000 to enforce the law, saying he did not believe it could be done for this sum. He later joined in support of an effort to limit the enforcement fund to \$1,000,000. Both proposals were rejected.

GOLD RESERVE OF U. S. IN 1920 SHOWS GAIN

Washington.—A net gain in the country's stock of gold of \$106,600,000 during 1920, as against a net loss for 1919 of \$291,700,000, has been announced by the Federal Reserve Board. Gold imports for 1920 totaled \$428,700,000, against \$76,500,000 for 1919, while gold exports aggregated \$322,100,000, as against \$368,200,000 exported in 1919.

Silver imports totaled \$88,100,000, as against \$89,400,000 in 1919, while exports amounted to \$113,600,000, as compared with \$239,000,000 in 1919, making the net silver loss through exports for 1920 \$25,600,000, against \$149,600,000 for 1919.

Of the total gold imports \$274,000,000, or over 64 per cent, came from Great Britain, which the board said included \$108,500,000 of gold formerly held by the Bank of England for the account of the Federal Reserve banks, and returned late in the year. Nearly 60 per cent of the total gold exports for the year, the board said, were consigned to Asiatic countries and over 80 per cent, or \$101,300,000, to Japan, while other important Asiatic destinations were China and the Dutch East Indies.

CROSSES SEA TO WED; CHANGES MIND

Marie Strapec Comes Here From Czechoslovakia to Marry Martin Knapp

San Francisco.—After coming all the way to California from Czechoslovakia to wed her childhood sweetheart, Marie Strapec changed her mind and called the marriage off. "Just because"—the woman's reason, was all the excuse she would give for not desiring to have the wedding take place.

Marie, who is 21 years old, comes from Hutty, Liptoska, Zupe, the old home of Martin Knapp of Arcata. They were sweethearts when she was but 5 years old. Martin came to California to make a fortune and settled in Humboldt county. A few weeks ago he sent Marie a ticket and money to come to California and meet him. She arrived in San Francisco a week ago and asked the Travelers' Aid Society to find Knapp for her.

He sent word for her to join him in Eureka as he could not leave his job. She refused to go, demanding that he come to San Francisco. Messages sent by Eureka officials in support of Knapp's request were of no avail, and Knapp had to come to San Francisco or lose his wife-to-be. When the young woman set eyes on Knapp, who is 29 years old, she decided she did not want to marry him. "I will get a job and pay you back with double interest the passage money you loaned me," she said, "but there will be no wedding."

Miss Strapec came across the Atlantic with a girl friend who was met and married in New York by Knapp's brother. She was shocked and horrified when the couple was married by a judge instead of a priest.

Miss Margaret Krsak of the Czechoslovakia Women's Club has taken charge of Marie until she makes all her plans for her future.

"Marie did not want to become Mrs. Knapp, as she was not able to talk English," Miss Krsak said. "She realized that she would not be able to go to school if she married at once. Hence her hesitation. Perhaps some day Knapp may be a happy bridegroom; perhaps not."

Iron Production in 1920

The total production of all kinds of pigiron for the first six months of 1920 was 18,435,602 tons, according to the report of American Iron and Steel Institute. This compares with 16,278,175 tons in the first six months of 1919 and 14,737,189 tons in the second half of 1919. The six months' figures would give an annual pigiron production of 36,871,204 tons, or an approximate 16 per cent increase over the 1919 production of 31,015,364 tons. The largest annual production was 39,434,797 tons in 1916, with 30,966,152 tons. Of the total six months' production, basic pigiron totaled 8,450,964 tons; Bessemer, 5,918,524 tons; foundry, 2,980,201 tons; malleable, 666,165 tons; forge, 168,869 tons, and all others, 251,149 tons. The basic pigiron total of 8,450,964 tons compares with 7,910,295 tons for the first six months and 6,583,836 tons for the last six months of 1919. Bessemer's total of 5,918,524 tons compares with 5,181,621 tons and 5,794,413 tons for the first and last six months of 1919, respectively. The total number of furnaces in blast on June 30, 1920, was 322, as compared with 280 on December 31, 1919. Pennsylvania took the lead with a total production of 7,241,725 tons; and Ohio was second with 4,139,811 tons. Alabama produced 1,225,236 tons. Statistics of iron made for sale or for use of the makers themselves show that 13,059,115 tons out of 18,435,602 tons, or 70 per cent, was for the latter purpose, and the balance, 5,376,487 tons, was made for sale.

San Francisco.—Testimony that Samuel Rhode, dry goods merchant, would remain away from home for weeks at a time, and when at home would sometimes sleep on the floor fully clothed rather than in bed, helped win a divorce for Mrs. Sarah Rhode in the court of Superior Judge T. I. Fitzpatrick. They were married in Kansas City, January 8, 1916. She was a widow with five children. Rhode surreptitiously shipped goods from a dry goods store she owned to his daughter by a former marriage, in San Francisco, she said, then urging she sold her business and her home and followed him. After she turned over all her property to him he became cold and indifferent in his attitude toward her, she said. A property settlement was made out of court.

Between and Between

Elise—Did you accept either of the men who proposed to you last night?
May—No; father wouldn't let me.
Elise—Why?
May—He said he didn't know anything about Mr. Truelove, and he knew too much about Mr. Truelove.—Pittsburg Press.

MEAT ANIMALS ARE CHEAPER

Farmers Have Been Selling at Prices 14 Per Cent Lower Than the Preceding Year.

Meat animals have been selling by farmers for a whole year ending with September, 1920, at prices that were lower than they were in the preceding year by 14 per cent. The fall in prices, compared with the former years, began in September, 1919. These statements are based on prices ascertained by the bureau of crop estimates, United States Department of Agriculture.

Prices of these animals were gradually increasing to the calendar year 1914, but they fell 8 per cent in 1915, followed by a gain of 17 per cent in 1916, of 49 per cent in 1917, when the peak was reached, of 17 per cent in 1918, and of less than 1 per cent in 1919. Now, for the last 4 months of 1919 and for 1920 to September, there has been a recession of price movement with a drop of 14 per cent.

Sure Enough
Gertrude has been to New York, and upon being asked what she had seen there she replied, "Lots of things."

"But what did you see especially?"
"Lots of high buildings."
"What else?"
"The Goddess of Liberty."
"The Goddess of Liberty? Well! Well! What did you think of her?"
"Nothin'. She just looked like a big lady holding up an ice-cream say-so."—Houston Post.

Advance
"Isn't Miss Priscilla Knowlton a professor in that girls' college any more?"
"Oh, no; she's gone way up in the world since she was there. She's getting a cook's pay now."

Used to It
"That theatrical director is something of an epicure."
"I suppose one thing he knows a lot about, then, is curing 'hamis'."

MALE BIRD MARKINGS

1. He should possess the characteristics and markings of the breed and variety of which he is a member.
2. Strong vitality.
3. Active movement.
4. Good health as indicated by ruddy combs and wattles.
- (It is not advisable to use a bird for breeding which has ever had a disease even if there are no indications of it at present.)
5. No marks of effeminacy. Crow should be strong and clear.
6. Remember the foundation of success in the breeding of poultry is the correct matings of the breeding pens.—B. W. Fairbanks of the Colorado Agricultural College.

FERTILITY IN TON OF STRAW

It Has Ability to Increase Crop Just as Much as Manure, Although It Is Slower to Act.

A ton of straw contains as much fertility as a ton of manure, and although the fertility does not become available quite so quickly, it nevertheless has the ability in the long run to increase crops just as much as manure. Of course the ideal way to use straw is to use it as bedding for animals and then spread it on the land mixed with manure. Where this is impractical the straw should be all means spread on the land at the rate of around one and a half tons per acre and plowed under.

INCREASED PRICES FOR EGGS

Greatest Advance in Records of Bureau of Crop Estimates Was in January.

Egg prices received by farmers began to rise in 1916 by 2.4 cents per dozen over 1915, in the average for the year, but the greatest advance in one year since 1915 was in 1917, when it was 9.7 cents per dozen above 1916. The advance of 1918 was 4.2 cents and of 1919 a fraction of a cent more, or 4.3 cents. The highest monthly price reached in the records of the bureau of crop estimates beginning with 1910 was for January, 1920, when it was 64.8 cents per dozen, to which it has risen from 30.5 cents for January, 1910.

ERADICATION OF COCKLEBUR

Plant is Double-Barreled Gun Affair, Carrying Two Seeds—Circular Tells How to Kill It.

In eradicating the cocklebur, remember that it carries a double-barreled gun. Every bur carries two seeds, only one of which sprouts the first year. Even when the product of that seed has been killed the other will be in shape to make trouble the next season. The United States Department of Agriculture has a circular on the cocklebur—how to get rid of it.

CHICKENS NEED GREEN FEED

Fowls Must Be Provided With Something to Take Place of Grass Obtained in Summer.

To take the place of green grass obtained by the fowls in summer the flock must be provided with green food in some form. Mangels and sprouted oats are very good. Alfalfa and clover meal are high in protein content and make good additions to an egg-producing ration. Cabbage and carrots are also good green foods.—E. J. Peterson, North Dakota Agricultural College.

MOTOR TRUCK IS PROFITABLE

Farmers in Eastern States Believe Use of Trucks Would Show Profit to Owners.

Out of 753 farmers owning motor trucks in 11 eastern states who answered a recent query of the United States Department of Agriculture 95 per cent said they believed the use of trucks would show a profit. Preference leaned toward a one-ton truck. Bad roads were the principal drawback.

An Offender
"I suppose poor Mrs. Jabbs will be arrested under the Sunday law?"
"Good gracious! What has she been doing?"
"I understand some secret investigator got into her pantry and discovered that her preserves were working."

Disappearing
"I notice a great deal of majesty and glory have gone from our outlook on the world just now."
"Yes; a lot of the second lieutenants have been mustered out."

Movies for the Home
Mrs. Downstairs—My husband was telling me that your husband has gone into the moving-picture business.

Mrs. Upstairs—Yes, we are house-cleaning and I've had him shift the pictures around.—Detroit News.

WHO IS TO BLAME?

Women as well as men are made miserable by kidney and bladder trouble. Thousands recommend Dr. Kilmer's Swamp-Root, the great kidney medicine. At drugists in large and medium size bottles. You may receive a sample also by Parcel Post, also pamphlet telling about it. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents, also mention this paper.

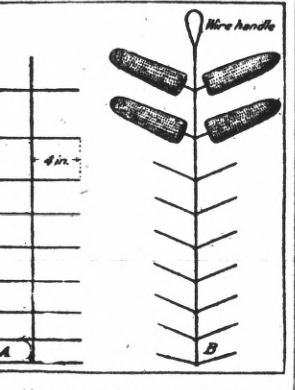

SIMPLE AND DURABLE RACK FOR SEED CORN

Can Be Made From Small Piece of Welded Fence Wire.

As Near Mouseproof as Any Device Can Be Made When Suspended From Ceiling and Affords Ample Air Circulation.

A simple and durable rack for storing and drying seed corn can be made from a small piece of welded wire fence. This rack when suspended on a wire from the ceiling is as near mouseproof as any such device can be made, and affords ample space for circulation of air. As only about eight inches of fence including one upright wire is required per rack, a large number of them may be made at a very small cost.

To make one of these devices cut the lateral wires of the fence four

Homemade Seed Corn Rack

Laterals from an upright wire and on both sides of it. Sharpen the ends of the lateral wires and bend them slightly upward so that the ears of corn will not slide off. A piece of bay wire can be attached to the upper end forming a handle. Some fences are made with the lower wires so close together that it may be necessary to cut off every other one to keep the ears from touching and to allow good air circulation.

SILAGE OF BIG IMPORTANCE

Use of Silos Becoming More and More Common Than Ever Before—Some of Advantages.

At this season of the year, the question of silage is always an important one. There is less argument needed for silos at the present time than has been true in the past for their use is becoming more and more common. Some of the principal advantages of silos are, they require less space for storage; silage shows a good effect on stock; it provides succulent feed in summer as well as in winter; there is no waste in feeding silage, for if it is of good quality the cattle will clean it up; it is easier to handle in winter or during a busy time than shock fodder; its value as a feed has increased in proportion to other feeds so it is just as economical to use as it ever was.

PLAN FOR FATTENING GEES

Most Breeders Do Not Confine Fowls, but Give Them Suitable Ration Before Marketing.

Most geese breeders do not confine their geese for fattening, but feed them freely a few weeks on a fattening ration before they are to be marketed. The geese may be confined for two or three weeks and fattened, but some geese feed or vegetables should be added to the ration.

Accommodate Motortrucks.
Farmers' elevator companies should make provision for unloading motortrucks loaded with grain. Many farmers now own trucks, and use them.

Roughage Helps Calves.
Measurements show that calves given a considerable quantity of hay or roughage developed in fine shape, while calves given nothing but whole milk for a diet died in 200 days.

Keep Down Vermin.
Vermis must be kept down on both old and young fowls. During hot weather these pests multiply extra fast unless checked at frequent intervals.

Excellent Chicken Feed.
Swiss chard, lettuce and young beets make excellent chicken feed. Chickens especially like lettuce and chard.

Hot Weather Essential.
Cleanliness around both houses and yards is imperative during hot weather.

Hospital Room

No. 14

By WILL T. AMES

(© 1920, by McClure Newspaper Syndicate.)

Miss McClintock, the businesslike Canadian supervisor, found Nurse Padgett coming out of the diet kitchen with a breakfast tray destined for room 14. "Nurse," said the supervisor in her impersonal military manner, "you are relieved. Go to the dormitory low and at seven o'clock to Night Supervisor Henry. You are to take Nurse Padgett's place in the women's free ward; she is called home by the sudden illness of her mother. I will take the tray—who is it for?"

"Room 14. Very well, supervisor." Superfluous conversation between nurses and supervisors was discouraged in the hospital, particularly any discussion of explicit orders. So Nurse Padgett, surrendering the napkin-covered tray, marched like a soldier down the long corridor and the long stairway and straight to her tiny room in the detached dormitory.

Evelyn Padgett was in the last year of her training course. As she sat at her window abstractedly gazing out over the city, spread clean in the morning light on three sides of Hospital Hill, it occurred to her that her new detail carried with it something very like an honor, for Maide Bourdette had been nurse in the women's free ward, and a two-year graduate—and never before since Evelyn had been in the hospital had a trainer been left in charge of any ward, even in any emergency.

"I suppose I ought to be grateful to old McClintock," soliloquized the girl. Then she proceeded to demonstrate her delight by doing something that three-year trainees are supposed to be all through with—she began to cry, quietly but earnestly.

For ten days Nurse Padgett had been taking care of Hugh Norris, otherwise professionally designated as room 14. Hugh had brought back from France, a silver of shrapnel mixed up with the muscles of his neck.

Later the silver had been acting queerly, and Norris' doctor had decided that it had best come out of that before it made serious trouble for the ex-soldier's vertebrae. So there had been an operation, with much subsequent fussing with bandages, etc., and with the collateral hunger for cod-liver oil which every big boy marooned on a bed of convalescence experiences.

Ten days is not long in the viewpoint of a geologist or of an antiquarian society. But in the St. Michael salient, or in the life of a lad and a lass, it can work stupendous changes. Yesterday Room Fourteen had said:

"Nurse, do you know whom you remind me of? Well, it's my mother—her picture when she was a girl." And he had been very serious and earnest about it, too, though as a matter of fact Evelyn resembled that long-gone mother not at all.

Evelyn's heart had jumped right up into her throat when Room Fourteen said that, for the girl doesn't live who can't analyze the meaning of this particular compliment. She had laughed lightly and replied: "Does that mean you want sugar on your bread and butter? Well, you can't have it unless the doctor says so!"

And she got herself quickly out of the room with the luncheon things—but in the long, deserted corridor she hastily kissed the corner of the napkin he had wiped his lips with.

And now Room Fourteen would be going out, certainly inside of a week—and what chance was there of Bourdette's returning within that time? None, of course. She would not be able to see him again. The rigid hospital discipline would prevent that—and even if this were not so, how could a self-respecting girl go throwing herself in a patient's way without genuine reasons in the line of duty? If only Maide Bourdette's mother had taken some other time to be ill!

At this thought Evelyn sat up very suddenly and very straight. Maide had no mother! She was an orphan and herself had told Evelyn that when her stepmother for two years. There was something queer, then, about this sudden absence of Nurse Bourdette.

Nurse Padgett's little head all at once became a perfect whirl of exciting speculations, as the result of which, after she had thought and thought till almost noon, Evelyn took her courage in her hand and went to see the supervisor.

At one o'clock Miss McClintock wired a certain Mrs. Georgiana Bourdette in a neighboring state: "Is your illness serious enough to require presence of daughter?" At four came this reply: "Have no daughter. Wouldn't let Ida B. touch me if I was dying."

At 4:30 Miss McClintock, stern and inquisitorial, sat in her office with Nurse Halliburton, the prettiest girl in the training personnel and the most troublesome that had ever managed to remain for a third year in that institution. They had been closeted for 15 minutes, and now Miss McClintock was summing up, like a judge. She said: "So you admit, Nurse, that you know the patient in room 14, by sight, and with your usual susceptibility, were, as your kind of girl says, 'crazy' about him; that on three different occasions you slighted your own work and tried to induce Nurse Padgett to let you substitute temporarily for her so that you might become acquainted with the patient?"

BANISHED—pimples, blotches, sores, humors, and eruptions, by taking Dr. Pierce's Golden Medical Discovery.

For a poor complexion, and for the poor blood that causes it, this is a proved remedy. In disease or disorder of the skin or scalp, in trouble that comes from impure blood, the "Discovery" is the medicine to take.

Scrofula, Eczema, Tetter, Salt-rheum, Boils, Carbuncles and kindred ailments are eradicated. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package of the Tablets.

AUSTRALIAN WHEAT IS GOOD

Larger Yield Obtained on Pacific Coast Than Some of Native Commercial Varieties.

Tests made by the United States Department of Agriculture with 130 lots of Australian wheats recently introduced into this country have brought out three varieties adapted for growing on the Pacific coast, where they have produced larger yields than some of the native commercial varieties. They are known as Federation, Hard Federation and White Federation. The Australian varieties in general are susceptible to most cereal diseases, but many of these are not destructive in the Pacific coast region.

Taking Garfield Tea keeps the system clean, the blood pure and the general health good. Buy from your druggist.—Adv.

Great Chance

"If you don't stop bothering me," said the Judge to the persistent book agent, "I'll be tempted to send you to jail."

"I wish you would, Judge. Think of the opportunities I'd have with people always in when you call and plenty of time on their hands."—Louisville Courier-Journal.

Cuticura Soothes Itching Scalp

On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your every-day toilet preparations and have a clear skin and soft, white hands.—Adv.

Treasure Trove

For some reason the Sunday-school class had become interested in Methusalem. At their urgent request the teacher related all the authentic information recorded in the Bible about that amazing man, also various anecdotes gleaned from less reliable sources. In conclusion she said:

"Now, is that all? Are there any further questions you would like to ask about Methusalem?"
"I'd like to know," said the most interested youngster of the lot, "where all his birthday presents are buried."—Galveston News.

No Answer

One—Yes, in a battle of tongues a woman can always hold her own. The Other—Perhaps she can. But why doesn't she—Sydney Bulletin.

Looks Like Lucky Day to Them. Inauguration day falls this time on Friday, but the successful candidates will hardly refuse to take office on that account.—Columbus Dispatch.

Plain Diagnosis

"Here is the case of a physician arrested because he prescribed whiskey for a patient without inquiring what the patient wanted the whiskey for."
"Any dub could tell that without asking. The patient wanted a drink."

Cuticura Soap is the favorite of doctors and druggists.

NATIONWIDE FIGHT AGAINST DISEASE

American Red Cross Will Have
Health Centers in All Parts
of United States.

The American Red Cross has launched upon a nationwide campaign of fighting disease and physical defect among the American people. A new and unique health institution has come into being as the result of several months' study by the Red Cross Health Service Department at National Headquarters.

Officials in charge of the department predict that before long this new health activity will be in actual operation all over the country, and that the sign—"American Red Cross Health Center"—will become as familiar to the people everywhere as are now the signs of the telephone companies.

Busy Long Before War.

The interest of the American Red Cross in the fight against disease is not, however, of recent origin. Long before the war the organization began this health service through its medical units in disaster relief work and its department of Town and County Nursing. During the war and following the armistice thousands of American Red Cross officials have been fighting disease in the war-stricken countries. At the same time tens of thousands of local Red Cross officials have been engaged at home fighting disease, notably during the influenza epidemics.

The American Red Cross has determined that all this valuable experience in health service abroad and at home shall not go to waste. So long as there are a half a million people dying yearly in this country from preventable causes, and so long as more than one-third of the American children and young people are victims of physical defects, the Red Cross recognizes the urgent need for continued Red Cross health service at home.

How Organization Works.

The Red Cross Health Center is governed by business principles, applies business methods, and, in its more simple form, can be established and conducted by lay people.

It proceeds upon the demonstrated fact that health is a commodity that can be bought and sold like brooms and soap. Therefore, it establishes itself in a store room in the principal business section of the community. It displays its goods in the form of attractive health exhibits in its show windows. It advertises constantly and extensively. And it uses every business and social device to attract customers.

The Red Cross Health Center is of service to the sick in that it gives out reliable and complete information about existing clinics, hospitals, sanatoria and other institutions for the sick and the defective; about available nurses, both trained and practical; about when to consult a physician and why to shun the quack and his nostrums.

Teaching Disease Prevention.

The Red Cross Health Center is, however, of even greater service to the well. It teaches people how to prevent sickness and disease. This is done in many interesting and attractive ways—first of all, by the distribution of popular health literature and through health lectures illustrated with lantern slides or with health motion picture films. Then special exhibits are given, one after the other, on various health subjects. Practical demonstrations are made; also health playlets by children to interest and instruct themselves and their elders. Classes are organized in personal hygiene, home care of the sick, first aid and in food selection and preparation. Health clubs, both for younger and older people, are formed; also Little Mothers' Leagues. Nutrition and growth clinics are conducted for children.

Already more than a hundred of these Red Cross Health Centers are in actual operation throughout the country. Many of them also conduct medical clinics, but the one chief, outstanding feature of the American Red Cross Health Center is its health education service which teaches well people how to keep well.

Overwhelming Evidences.
Unto a massive book I cling
With stout and patient hand.
The more I try to read the thing
The less I understand.

JUNIOR RED CROSS WORKING AT HOME

Production of Sound American
Citizenship the First Aim,
Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Serve." That tells the story of the school children's branch of the American Red Cross and its efforts to bring happiness to children throughout the world.

Realizing that the time never was so propitious as right now for teaching the highest ideals of citizenship, the entire present program of the Junior Red Cross has been framed under the very inclusive phrase, "Training for Citizenship Through Service" for others. Since the Junior Red Cross is the agency through which the American Red Cross reaches the schoolboys and the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the number of studies to lend its aid in vitalizing the work of the schools.

"The thing that is needed," says Dr. Livingston Farrand, Chairman of the American Red Cross Central Committee, "is not a perpetuation of the Junior Red Cross, but the training and breeding of sound American citizenship inspired by the true, fundamental ideals of sound democracy. One of the great conceptions in making the Red Cross a contributor to better citizenship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organization of the Junior Red Cross makes the school—public, parochial and private—the unit, not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, care of the sick, participation in civic and patriotic movements—all these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school authorities.

Graded study courses giving practical methods of civic training, supplemented by pamphlets and helpful suggestions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange of correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program.

In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick, first aid, and dieting may be established in all Junior Red Cross auxiliaries.

The ideals and the objective of the Junior Red Cross are embodied in the pledge of service which the pupils take when they sign the membership roll and pins on their coat the Junior's badge. The pledge which binds together service and citizenship reads:

"We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service."

"We will strive never to bring discredit to this, our country, by any unworthy act."

"We will reverence and obey our country's laws and do our best to inspire a like reverence and obedience in those about us."

"We will endeavor in all these ways as good citizens, to transmit America greater, better and more beautiful than she was transmitted to us."

At the foundation of this school program of the Junior Red Cross is a great love for America's children.

PEA SOUP SKIES.

Irving Bush, the owner of the famous Bush terminal in New York, was talking about the kindred building he is to put up in London. "Of course," he said, "I wanted to give London a skyscraper, but the authorities wouldn't hear of that. And yet," he added, "if there was ever a sky that needed a good scraping, it certainly is London's."

Editorial Comments

A Sane Statement

"The northwest will experience a distinct revival of business within the next 60 days," predicts A. V. Brown, superintendent of western division of the Northern Pacific railway.

"It is just a matter of completing the readjustment period which had to come," declared Mr. Brown. "There is absolutely no reason why people should become panicky or get the idea that this depressive period will continue. The country has just as much resources and the demand for products is just as great."

"The movement of goods has been curtailed on account of the waiting of the people due to the readjustment of business and labor to a common level. I believe that things will pick up and the much needed building and industrial activity revived within 60 day."

It Required a Shock to Awaken San Francisco

As the San Francisco gangsters, with their evergrowing boldness, finally committed outrages which brought the wrath of a city down upon their heads, so are the tax spenders going to feel the wrath of public sentiment when the continued burden of political extravagance has to be met by the common citizen out of a peace time income. It may be said that the people have only themselves to blame for reckless expenditures in public affairs. This will not delay the reckoning, however, any more than it will to say that San Francisco is to blame for allowing the growth of conditions leading up to the recent trouble there. It takes a shock to awaken the public even to its own shortcomings. Vice conditions awakened the moral consciousness of San Francisco after girls had been outraged and men murdered.

Banks Optimistic

The bankers of the important financial centers, who have been steadily and actively participating in handling the financial problems which have characterized the period of readjustment from war conditions are uniformly optimistic on the present financial and business situation," said Edward Cookingham, president of the Ladd and Tilton bank, Portland, Oregon. "It is important that all of us—bankers, manufacturers, wholesalers, farmers and wage earners—recognize the fact that the economic adjustment now going on is inevitable and must run its course. However, there are so many favorable features to the present situation, and so much of encouragement in the future outlook, that is difficult for me to be otherwise than optimistic."

Twenty billions spent in the world war, and as much more lost through individual extravagance and inefficiency, and morale lowered through the excitement of a great world struggle against military autocracy, requires every American citizen the highest and most patriotic resolution to repair the great loss to our normal prosperity.

Many a man who in his time shucked 100 bushels of corn in a day, now has a son who finds it mighty hard to bite the grain off a roasting ear.—Rochester (Ind.) Sun.

COMPULSORY ARBITRATION.

A French mission which lately visited Australia reported that "one can say in favor of the Australian system of compulsory arbitration that it has been effective in securing for the workman a decent minimum wage. There are no really low wages in Australia. Nevertheless, a large number of French workers receive higher wages proportionately."

Yet, although the French visitors recognized the commonwealth as "a land of real social equality, where conditions of life are easy," they found that, as a rule, "the wages in Australia have not risen to an equal degree with the cost of living."

MINTING FOREIGN COINS.

In 1919 the Philadelphia mint made for Peru 7,000,000 bronze pieces, 13,750,000 nickel pieces and 29,195 gold one-pound blanks; for Argentina it made a large order of bronze pieces and 47,595,000 nickel pieces; and for Siam, 13,175,000 bronze pieces. In the same year the San Francisco mint made for the Philippine islands, which use American gold coins, but which have all other coins made according to their own designs, 2,000,000 nickel pieces and 11,115,000 silver pieces.—Youth's Companion.

The old bus was rambling right along for a good day's fishing, when suddenly the left rear tire blew out with a report like a naval gun. We stopped. A few feet behind us a flivver stopped too and a gentleman got out, coming toward us with a blowout patch in his hand. It was quite warm and I recognized it at once as our own trouble maker. "Glad to be of service," remarked the gentleman. "This just came flying into my car so hard I thought it must be a bullet and your party a crew of road agents. It was a great idea to make these things of rubber instead of lead!"—Exchange.

Bank Clearances

The following are the bank clearances for November, 1920:

San Francisco	\$664,476,049
Los Angeles	380,183,050
Oakland	48,529,030
Sacramento	27,828,325
Fresno	22,541,760
Stockton	22,054,538
Berkeley	12,385,333
San Diego	15,660,680
San Jose	8,453,785

All-American Shoe Repairing Shop

There is now established at 9th and Nevin an All-American shoe shop that promises to do a large business in Richmond.

The proprietors, Gregory and Hansen, are loyal 100 per cent American citizens, which is sufficient recommendation when one gets down to brass tacks and thinks a little about who to patronize. The All-American shoe repairing shop will give you the best workmanship at the lowest price. Give them a trial.

SUMMONS.

No. 8280.
In the Superior Court of the County of Contra Costa, State of California.
Action brought in the Superior Court of the County of Contra Costa, State of California, and the Complaint filed in the office of the Clerk of said County of Contra Costa.

Contra Costa Realty Company, a corporation, Plaintiff, vs. A. S. Martin, L. W. Bingley, Philip Kolb, T. W. Munch, Golda Charnack, Laura L. Fussell, O. Harumes, Gus Legackes, G. Leardini, Albert Daracens, Otto Muller, John Doe, Richard Roe, James Poe, Mary Doe, Susan Roe and Nellie Poe, Defendants.

The people of the State of California send greetings to A. S. Martin, L. W. Bingley, Philip Kolb, T. W. Munch, Golda Charnack, Laura L. Fussell, O. Harumes, Gus Legackes, G. Leardini, Albert Daracens, Otto Muller, John Doe, Richard Roe, James Poe, Mary Doe, Susan Roe and Nellie Poe, Defendants. You are hereby directed to appear and answer the complaint in an action entitled as above brought against you in the Superior Court of the County of Contra Costa, State of California, within ten days after the service on you of this summons, if served within this county; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment against you for any money or damages demanded in the complaint, as arising upon contract or will apply to the court for any other relief demanded in the complaint.

Given under my hand and seal of the Superior Court of the County of (SEAL) Contra Costa, State of California, this 19th day of December, A. D., 1918.

J. H. WELLS, Clerk.
By S. Wells, Deputy Clerk.
H. V. Alvarado and C. D. Horner, attys. for Plaintiff, Richmond, Cal. n19-9t

AMENDED SUMMONS

NOTICE OF SHERIFF'S SALE.

Superior Court of the State of California and for the County of Contra Costa. Mary Louisa Silva, Plaintiff vs. Manuel E. Silva, Defendant.
Under and by virtue of a writ of execution, to me directed, issued out of the Superior Court of the County of Contra Costa, State of California, on the 27th day of October, 1920, in the above entitled action, wherein Mary Louisa Silva recovered a judgment against Manuel E. Silva, which judgment was duly entered and docketed on the 6th day of October, A. D. 1920, for the sum of Twenty-five Dollars per month for the period of one year from October, 6th, 1919, for the use and support of Mary Ella Silva, minor child of plaintiff and defendant, and there is now due the sum of Three Hundred Dollars (\$300) on said judgment.

I have levied upon and taken under execution all the right, title and interest which the said Manuel E. Silva had or held on Oct. 6th, A. D. 1920, or at any time subsequent thereto, in and to all those certain lots, pieces, or parcels of land, lying and being in the County of Contra Costa, State of California, and described as follows:

Being all of Lots Forty-Seven (47), and Forty-Eight (48), in Block Four, (4) and Lots Three (3) and Four (4), in Block One (1), Bay View Park, as said Lots are respectively laid down and delineated on Map of Bay View Park filed in the office of the County Recorder of the County of Contra Costa, on April 4th, 1905.

Together with all the improvements and appurtenances thereto belonging. Public notice is hereby given that on Tuesday, the 25th day of January, A. D. 1921, at 12 o'clock noon of that day, in front of the courthouse, in the town of Martinez, County of Contra Costa, I will sell all the right, title and interest which the said defendant Manuel E. Silva had or held on Oct. 6th, 1920, the day on which said judgment was docketed as aforesaid, or which he may have subsequently acquired in and to the above described property, to the highest bidder for gold coin of the United States.

Dated Martinez, Dec. 28, 1920.
R. E. VEALE,
Sheriff of Contra Costa County.
W. M. VEALE,
Deputy Sheriff.
